

ADT EasyPay

ADT EasyPay is an automated payment option that also eliminates the clutter of paper statements. You can set up EasyPay with a bank account, credit card, or debit card.

When you enroll in EasyPay, your charges for regular services will be debited automatically from your payment account. If you need to order a battery or other items not included in your regular charges, you will need to pay at the time of purchase using [Express Pay](#) or a [One Time Payment](#).

When you enroll in ADT EasyPay you are also automatically enrolled in paperless billing. You will no longer receive paper statements in the mail. PDF statements are available to review at any time on MyADT under the My Account tab.
