# Pulse - Sensor Activity

Sensor Activity is a list of the most recent actions that have occurred in your system, such as opened/closed sensors, lights turned on/off, and system armed or disarmed. To access the Sensor Activity screen, tap the Navigation Menu ☰ (hamburger) icon, then tap SENSOR ACTIVITY.

## All Sensors

The All Sensors screen displays a tile for each sensor in the system, along with the state of that sensor. Scroll down the list to view additional sensors.
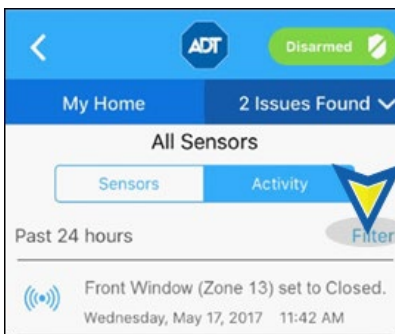

## Sensor Activities

To view a list of sensor activity, tap ACTIVITIES. A list of activities for all sensors is displayed with the date and time of the activity, with the most recent displayed first. Scroll down to view more activities. The default view shows the last 30 days.
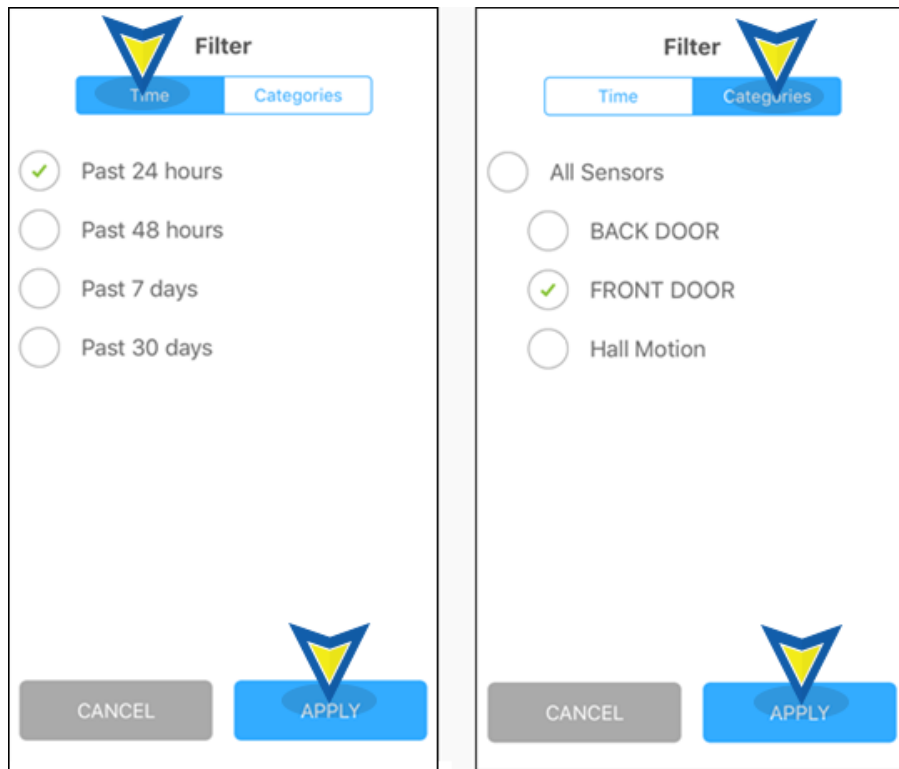

# Sensor Filters

To narrow your list of activities, tap the FILTER button at the top of the list.

You can filter by time or by a specific sensor. To select, tap the circle by the desired item; a green check indicates that it has been selected. Tap APPLY to display the selection, or CANCEL to cancel.

- **Time:** filters by the selected time period. Tap the time period desired, then tap APPLY.

- **Categories:** Tap ALL SENSORS to select all sensors, or tap the specific sensor, then tap APPLY.
